This award will be given to a learner who has overcome challenging personal circumstances to make great educational achievements. We are looking for evidence that a learner has shown a clear passion for learning, determination to achieve in the face of adversity, and whose achievements have acted as an inspiration to others.

This award will be given to a member organisation that has made the greatest contribution to social mobility through their provision. In other words, we want to recognise an organisation that is going above and beyond in helping to transform individuals lives for the better. This could be through providing excellent work experience opportunities to help learners into careers, working with marginalised individuals, or through projects that benefit the wider community and much more.
